

EVENT MANAGEMENT & TICKETING SYSTEM

Database: MongoDB

1. CREATE DATABASE

```
use EventManagementDB
```

2. USERS COLLECTION

```
db.users.drop()
```

```
db.users.createCollection("users")
```

```
db.users.insertMany([
```

```
{ userId: 1, name: "Priyanshi Juyal", email: "priyanshijuyal81@gmail.com", phone: "96250862989", role: "organizer", createdAt: new Date() },
```

```
{ userId: 2, name: "Priyanshi Bisht", email: "priyanshibisht2345@gmail.com", phone: "9567774553", role: "organiser", createdAt: new Date() },
```

```
{ userId: 3, name: "Kavya bisht ", email: "kavyabisht67@gmail.com", phone: "4897265552", role: "organizer", createdAt: new Date() },
```

```
{ userId: 4, name: "kanak chaudhary", email: "kanakchaudhary98@gmail.com", phone: "4589632587", role: "attendee", createdAt: new Date() },
```

```
{ userId: 5, name: "sanskar singh", email: "sanskarsingh90@gmail.com", phone: "4873298883", role: "attendee", createdAt: new Date() },
```

```
{ userId: 6, name: "neha govind", email: "neha@gmail.com", phone: "1236985478", role: "organizer", createdAt: new Date() },
```

```
{ userId: 7, name: "suraj singh rawat", email: "suraj456787@gmail.com", phone: "7894561236", role: "attendee", createdAt: new Date() },
```

```
{ userId: 8, name: "saransh patel", email: "saransh98@gmail.com", phone: "7412896333", role: "attendee", createdAt: new Date() },
```

```
{ userId: 9, name: "amrit singh", email: "amrit@gmail.com", phone: "7539526314", role: "organizer", createdAt: new Date() },
```

```
{ userId: 10, name: "Isha bisht", email: "isha@gmail.com", phone: "1478522587", role: "attendee", createdAt: new Date() }
```

```
])
```

3. CATEGORIES COLLECTION

```
db.categories.drop()
```

```
db.categories.createCollection("categories")
```

```
db.categories.insertMany([
```

```
{ categoryId: 1, name: "Dance", description: "dance moves and dance shows" },
```

```
{ categoryId: 2, name: "Music ", description: "music and music show" },
```

```
{ categoryId: 3, name: "Sports", description: "Sports events and matches" },
```

```
{ categoryId: 4, name: "Arts and craft", description: "Art exhibitions and theatre" },
```

```
{ categoryId: 5, name: "technology", description: "Workshops and techtalks" }
```

```
])
```

4. EVENTS COLLECTION

```
db.events.drop()
```

```
db.events.createCollection("events")
```

5. TICKETS COLLECTION

```
db.tickets.drop()
```

```
db.tickets.createCollection("tickets")
```

6. CRUD OPERATIONS

```
db.events.find({ status: "upcoming" })
db.events.updateOne({ eventId: 101 }, { $set: { status: "completed" } })
db.tickets.deleteMany({ status: "cancelled" })
```

7. AGGREGATION PIPELINES

Top events, revenue, attendees, category grouping

8. INDEXES

```
db.users.createIndex({ email: 1 }, { unique: true })
db.events.createIndex({ dateTime: 1 })
db.events.createIndex({ category: 1 })
db.tickets.createIndex({ eventId: 1 })
```
